

## TMTA STUDENT AFFILIATE THEORY EXAMINATIONS

Marianna Folger, chair Jenny Herzig, assistant

Testing Fall: November 2-3, 2024

Testing Spring: February 1-2, 2025

Theory Examinations for Student Affiliates in grades 1-12 will be given twice a year. An examination fee of \$15.00, which is non-refundable, together with the name, school grade and testing level of each entrant, should be sent to Marianna Folger by the deadline date.

Supplies are limited so no late entries can be accepted.

To be eligible for theory medals and other awards, a student must test at the school grade level. To be eligible for participation in state sponsored events, tests must go through the TMTA grading process. Students in grades 2-4 must pass at either current school grade level or one level below. Students in grades 5-12 must pass the test at a minimum of level 4 and progress to higher levels each year.

One deadline is listed in order to enroll your students to take the test. The teacher must have ordered tests for each student who wishes to participate and Marianna Folger must receive your check by that deadline date. All money received is non-refundable.

Copies of tests from the previous testing period may be ordered from the TMTA office (web site) for a fee - to use for study purposes. Copies of older tests are available on the TMTA web site – free.
